* Taking the test is optional but understand that it does impact your GPA. In addition to the half point you receive for taking an AP class, you will receive an additional half point for taking the AP exam for a total of a whole point. For example, earning a "B" in AP US History would result a 3.5 instead of a 3.0; however, if you take the class and take the exam, that 3.5 becomes a 4.0 in that class.

If a test is paid for and ordered, but you decide not to take the test, you must pay \$15 for the unused test. If you were testing on a fee waiver, this \$15 fee does apply to you if you miss the test.
