

MEET *the* TEACHER

Welcome!

My name is Melissa Sessions and I am excited to be your 8th grade math teacher this year! Math is a true passion of mine and I will strive to make everyday a new adventure! This will be my 3rd year teaching and my first year at Daphne Middle School. I am looking forward to an **EXCITING** new year!

A Few of My Favorite Things:

Chick-fil-a, Target, Alabama Football, Disney World, fall weather, Diet Dr. Pepper, DIY crafts, coaching and playing volleyball, reading, pedicures, and spending time with my sweet family!

Education

In December of 2017, I received my Master of Arts in Teaching degree from The University of West Alabama in Livingston. I have previously taught math at the high school level, including Algebra 1, Geometry, & Algebra II with Trigonometry.

UWA | The UNIVERSITY of WEST ALABAMA

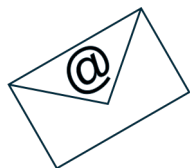

About Me:

Outside of teaching, I am a wife and mom of two kids, Hattie and Anna. I grew up in Daphne and also attended schools in the area. I have played volleyball since I was 9 and been coaching since graduating from college in 2009. I am so excited to be able to raise my family, coach, and teach within such an awesome community!
