

Daphne/Spanish Fort Redistricting Proposal

INFORMATIONAL MEETING

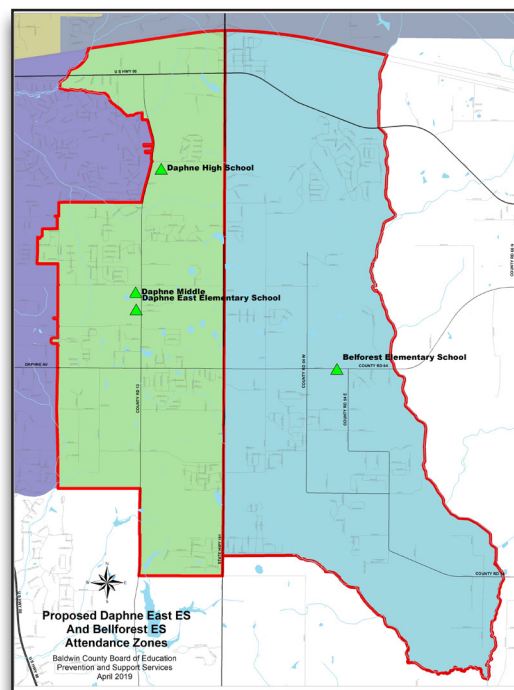

K-6 Reconfiguration:

- Students living in the zones shown on this map will remain in the Daphne feeder pattern.
- Due to the purpose of this redistricting, there will be no “grandfathering” of students to a particular school in these areas.
- Students should attend the school they are zoned to attend, based on lines drawn, depicted on the new map.

Guidelines for Grandfathering

Middle and High School

- If you have a child(ren) presently in 5th – 10th grades,
- Your child(ren) will be “grandfathered” into the feeder pattern they are presently attending as indicated below:
 - Historic Malbis, Plantation Hills, Bay Branch and adjacent areas will be grandfathered into the Spanish Fort feeder pattern.
 - Dunmore and Old Field Subdivisions will be grandfathered into the Fairhope feeder pattern.
- Rationale for grandfathering current 5th – 10th graders:
 - Present 5th graders will be in 7th grade when redistricting takes place in 2020.
 - Present 10th graders will be seniors when redistricting takes place in 2020.
 - In other words, middle and high school students will be grandfathered into their current feeder pattern.

Clarification of Guidelines

- Guidelines do not apply to an unborn child or if you are expecting a child.
- Guidelines apply only to students presently in BCBE 5th – 10th classes and K– 4th grade classes.
- Guidelines do not pertain to students presently in private schools.
- Grandfathering is a choice. You may choose to stay at your current school or select the new school you are zoned to attend.
- Moving from your present location relinquishes your grandfathered status.
- Leaving the school you are grandfathered into, also gives up your grandfathered status.

Guidelines for Grandfathering Elementary Students

- If you have a child(ren) presently in 5th – 10th grades, and younger child(ren) presently in K-4th grades,
- The younger child(ren) will be “grandfathered” into the current feeder pattern they are presently attending.
- Dunmore and Old Field grandfathered students will continue to attend the new Fairhope K-6 Elementary.
- Historic Malbis, Plantation Hills and Bay Branch grandfathered students will continue to attend Rockwell Elementary.
- Families moving into the Historic Malbis, Plantation Hills, Bay Branch, Dunmore or Old Field subdivisions **and enroll their child(ren) on or before May 23, 2019 will be included in the grandfathering guidelines.**
- Grandfathered children will not be transported by BCBE.

What about me?

- If your family did not meet any of the guidelines discussed in this flyer...
- Your child will remain in the school they are presently attending for the 2019-2020 school year, then...
- In August of the 2020-2021 school year, your child will attend either Daphne East Elementary or the new Belforest Elementary School.
- If you live in the Old Field subdivision, your child will attend Daphne East Elementary beginning in the 2020-2021 school year.
- If you live in the Dunmore, Historic Malbis, Plantation Hills or Bay Branch subdivisions, your child will attend Belforest Elementary in the 2020-2021 school year.
