

# Free Antibiotics Program

Our free antibiotics program covers five of the leading oral generic antibiotics for both adults and children.

The following are **FREE** with your doctor's prescription and, as always at Pure Life, no insurance and no copay. No Strings Attached!

**Amoxicillin**

**SMZ-TMP (generic Bactrim DS)**

**Cephalexin Caps**

**Penicillin VK**

**Ciprofloxacin (generic Cipro)**

Prescription must be picked up at the pharmacy in person. Maximum 10-day supply at normal dosage. Program may be subject to change. If you have any questions, please call our pharmacist's direct number:

**(251) 424-1544 (Option 1)**

## **Pure Life Pharmacy is Dedicated to Lowering the Cost of Medicine**

We offer high quality compounds and low cost generics.

Pure Life Pharmacy has no insurance contracts. We are unique because we skip insurance all together to sell direct and save patients money. We are located in Foley, Alabama, and have been since 2014. We are licensed in Alabama and Florida and offer mail out services to anywhere in those states.

**Pure Life Pharmacy consists of two components: low cost generic medications and high quality compounds:**

### **TRADITIONAL PHARMACY**

- All Insurance contracts have been eliminated: No insurance cards needed, No fees, No prior authorizations, No qualifying process.
- The cost of the same prescription could differ by 50% or more between pharmacies in the same city. In the USA, drug prices are not fixed or regulated.
- Copays are not necessarily the lowest price. Hundreds of customers pay less at Pure Life Pharmacy than their insurance co-pay. About half of our customers have insurance, but bypass it because our cash prices are cheaper. Just because you have insurance doesn't mean you have to use it.
- Over 1000 medications listed for \$10 or less (30 day supply).
- Most generic medications are **Buy 2 months and Get 3rd Month FREE.**
- With or without insurance, anyone can save using Pure Life Pharmacy.
- All generic medication is ordered from the same wholesalers that major, larger retail chains use. (Sample Generic Rx Pricing List attached)

### **COMPOUND PHARMACY**

- Compounded medication reasonably priced: Typically, between \$45-\$55/month.
- State of the art compounding lab filled with high quality equipment like "The Maz" orbital mixer
- We can compound any non-sterile medications.
- Offer all non-sterile compounds. Most commonly prescribed are: bio-identical hormones, compounds for hemorrhoids, compounds for acne, compounds for nasal infections, LDN and shingles creams.
- We have 3 pharmacists with over 30 years combined pharmacy experience and 22 years combined compounding experience.
- We encourage strong relationships between the prescriber and pharmacist and the patient and pharmacist.

**Pure Life Pharmacy has created three new programs to help patients in our community:**

**RxAngels "Pay it Forward" Program:** Created to assist those who cannot afford essential monthly medication.

**Free Antibiotics Program:** This program covers five of the leading oral generic antibiotics for both adults and children.

**Free Children's Vitamins Program:** This program provides free gummy vitamins to children from families in need.
