Carline
For the safety
and security of
all, please
follow our
traffic pattern
and procedures.

- Traffic Pattern
 - Enter on Thomas Avenue.
 - Immediately turn left onto our campus.
 - Begin forming two lines as you work your way to the back of the campus.
 - Do not block Thomas Avenue by starting two lines prior to entering our campus.
 - Then the lines will turn left towards the school building.
 - Finally arriving in two lines along the canopy.
- 

Carline Procedures

- We do not use numbers or call names. We expect students to look for their car.
 - As students arrive to carline, they may load their vehicle.
 - Lead teacher will blow the whistle twice. This signals that cars are about to start moving. At this time all students should be on the benches waiting for the next wave to load.
 - When the first wave exits and traffic is stopped, the lead teacher will blow the whistle once. This is the signal for students to load again. The first 8-10 cars located in front of the canopy load. Do not allow any others to load.
 - This procedure is repeated until carline is empty.
