

What We Know...

1. Bullying takes place at our school.
2. Often the kids least able to defend themselves are the victims of the bullies.
3. Bullying can lead to emotional and psychological scars on a child for a lifetime.
4. Bullying often takes place most without adults knowing it is happening.
5. Children are often ill-equipped to deal with a bully.
6. Parents are often ill-equipped to help their child who is being bullied.
7. Any improvement plan at our school which does not have the support of the entire staff is more likely to fail.
8. To truly bully-proof our school, we need the entire staff to support the initiative.
9. To make exponential gains toward bully-proofing, we need the support of the students and parents as well.
10. We can do this because our staff cares about kids!
